

Freedom

(Music and Lyrics by Jackson Spider)

The mighty and the powerfull
wanna treat us like slaves
but we gotta show'em
this is not the dark ages

Supported by the media
they try to break your mind
shut your mouth, take our shit
and be a lovely kind

Ref:
Freedom is more than just a nice word
Freedom is the source and target of life - yeah
Freedom is more than just a nice word
It needs to be protected and guarded by us

Politicians fuck you up
and try to sell your soul
if you resist the bury you
in a deep black hole

The internet it seems your friend
you drop your privacy
but suddenly one day....
your friend turns into enemy

Ref

Wake up my friend it's not too late
to open up your eyes
use your brain, raise your voice
and detect all their lies

Kick their ass, show your teeth
and stand up for your right
there is no other way
together we must fight
