

# NYC

(Music and Lyrics by Jackson Spider)

It's like coming home  
when you breathe the city air  
and it's not the first time  
you be-in there

You watch for a cab  
which is driven by a crazy guy  
he brings you to the city center  
a different world to enter

Ref:  
This city is a part of me  
a great place to be  
that's why I love NYC

It's the capitol of music  
was the home of the Ramones  
and the ground John Lennon died  
next to Central Park

It is not important  
where you stand and where you are  
you can feel it everywhere  
from Brooklyn to Times Square

This city...

<Solo>

This city...

It's like coming home...

This city...

Even Miss Liberty  
thought it's a great place to be  
that's why she loves... that's why she loves...  
that's why she loves NYC
