

## **Smoking Girl**

(Music and Lyrics by Jackson Spider)

Every break we take  
She needs her cigarette  
Cause she's only happy  
When the blue fog's round her head

Bridge:  
She smokes a lot be she can't stop  
To ruin her life  
And that will be the reason  
Why she'll never be my wife

Ref:  
My smoking girl so far away  
She needs her stuff every day  
I'd always love her and never forget  
My bad smelling angel and her cigarette

I was obset for a long time  
But I didn't know how to get  
Then I had a smart plan  
To reach my girl at last

Ref

Next day I gave her a light  
And She was happy then  
Now I want to kiss her  
And get her kiss back again
