

Turn it up

(Music and Lyrics by Jackson Spider)

Every day we see people in the streets
wasting up their lives as if they never have to die
Every day we see people in the streets
wasting up their lives as if they never have to die

Ref:

Live your life speedin' on the highway
never look back no matter what's in your way
Turn it up loud and fast
turn it up step on the gas
Turn it up loud and fast
turn it up step onn the gas - yeah...

Slaves of their TV - they're live is what they see
but they don't realize they leave reality behind
Slaves of their TV - they're live is what they see
but they don't realize they leave reality behind

Ref

Puppets on a string they believe in anything
They're media controled putting their brains on hold
Puppets on a string they believe in anything
They're media controled putting their brains on hold

Ref
